Please consider signing this Resolution to help the Water Users Coalition members build awareness and support to oppose any effort by the Texas Legislature to shift responsibility of the cost of maintaining roads or related facilities, including storm sewers, from counties to water districts, (AWBD Journal Fall 2016).

Association of Water Board Directors – Texas, Legislative Principle No. 10. 85th Regular Session 2017

AWBD opposes any effort to shift responsibility of maintenance for roads or related facilities, including storm sewers located within the road right of ways or within related easements dedicated to the public or a county, from counties to water districts.

As a member of the Association of Water Board Directors, “AWBD” – Texas, and a Texas resident, I hereby declare my desire for all Texas legislators to support AWBD principle No.10.
