Declaration of Support for the Water Users Coalition

The Water Users Coalition “Mission Statement”

September 28 2016

The Water Users Coalition is dedicated to providing a forum of good faith constructive dialogue to encourage cooperation and to build a stronger representation among water districts, cities and other parties impacted by local, state, and federal Governmental laws, policies, and regulations. The focus of the interaction will be on water issues and related subjects that affect the Coalition members; and to encourage our government entities and agencies to work together solving problems with practical common sense solutions. The Water Users Coalition will advocate the formation of partnerships with government entities, agencies, individuals, associations and businesses where appropriate. We will raise awareness of the means by which their cooperation can help provide the public with quality safe drinking water in a cost efficient and effective manner. The Coalition’s efforts will seek to minimize unnecessary burden and regulation on customers, improve overall communications, and provide interaction on present and future water issues.

Objectives

- *Provide an opportunity for meaningful open discussion on water issues.*
- *Actively advance ideas and concerns of our coalition members.*
- *Strengthen representation by building partnerships through cooperation on related water issues.*
- *Improve communications with local, state, and federal Governmental entities and agencies*
- *Seek out solutions to water problems and take action to support enacting policies, laws, and regulations that will help provide safe drinking water as cost efficiently as possible.*
- *Minimize unnecessary burden and regulation on customers.*

The Water Users Coalition seeks to provide an additional voice and not to replace our individual member’s participation or representation.
